Public Forum: Ft. Smith Blvd Construction Project

March 17, 2011—Residents are invited to attend a public information meeting regarding the construction of Ft. Smith Boulevard from Providence Blvd to Primrose Terrace. The meeting will take place at the Deltona City Hall on Tuesday March 22nd, from 6:30pm-8:30pm.

Construction is scheduled to begin within the next 30 to 60 days. The proposed improvements will include 1.65 miles of widening of the existing two-lane roadway to a three-lane urban typical section with bicycle lanes and sidewalks as well as the installation of a new water main to replace the old main.

Aerial maps, construction drawings and other information will be available at the public meeting. City representatives will be available throughout the meeting to answer questions and provide information regarding the design and construction.

In compliance with the Americans with Disabilities Act, the City, if requested, will provide special assistance at the public hearing for those persons who are disabled. Those persons requiring special assistance must send written notification at least five days prior to the public hearing, to Chris Collier, Project Administrator-Environmental, City of Deltona, or you may telephone 386-878-8996.
